## Round Size

**Investment Amount (CAD $)** *
400,000.00

**Currency** *
CAD $

**Investor Post-Money Ownership(%)**
25.00

**Pre-Money Valuation (CAD $)**
1,200,000.00

**Post-Money Valuation (CAD $)**
1,600,000.00

**Pre-Money Option Pool (%)** Auto-filled
8.00%
✓ Carried over from previous round (8.00%)

**Post-Money Option Pool Target (%)** *
20.00%
Target option pool percentage after investment (Post-Money)

**Top-up needed:** Expanding pool from 8.00% to 20.00%
Additional option shares will be created (+75,420 shares)

**Total Shares Issued in this Round**
123,906.00

## Round Size

**Investment Amount (CAD $)** *
120,000.00

**Currency** *
CAD $

**Investor Post-Money Ownership(%)**
72.73

**Company Value (CAD $)**
45,000.00

**Post-Money Valuation (CAD $)**
165,000.00

**Pre-Money Option Pool (%)**
10.00
Option pool percentage before investment (Pre-Money)

**Total Shares Issued in this Round**
296,296.00

**Founders:** 13.88% | **Option Pool:** 20.00% | **Seed Investors:** 0.00% | **Series A Investors:** 25.00%

### 📐 Series A Calculation Formulas

**Post-Money Option Pool Method**

**1. Post-Money Valuation:**
```
Investment ÷ Pre-Money = Post-Money
CA$400,000.00 ÷ CA$1,200,000.00= CA$1,600,000.00
```

**2. Investor Ownership %:**
```
Investment ÷ Post-Money
CA$400,000.00 ÷ CA$1,600,000.00= 25.00%
```

**3. Founders + Seed Ownership %:**
```
100% - Investor% - Target Pool%
100% - 25.00% - 20.00%= 55.00%
```

**4. Post-Investment Total Shares:**
```
Founders+Seed Shares ÷ Founders+Seed %
396,296 ÷ 55.00%= 720,538
```

**5. Total New Shares Needed:**
```
Post-Investment Total - Existing Total
720,538 - 407,407= 313,131
```

**6. Additional Option Pool Shares:**
```
(Target% × Post Total) - Existing Pool
(20.00% × 720,538) - 11,111 = 132,997
```

**7. Series A Investor Shares:**
```
Total New Shares - Additional Option Shares
313,131 - 132,997= 180,134
```

**8. Share Price:**
```
Pre-Money ÷ (Existing + New Option Shares)
CA$1,200,000.00 ÷ (407,407 + 132,997) = CA$2.221
```
